

Metrô do Rio. How it works.

The line 1 train has the destination written in red above the entrance doors.

The line 2 is in green. To avoid errors, whenever possible, try to use line 1.

Cartão Unitário (Unit Card) - It's only valid one-way. Once the unit card is scanned it releases the turnstile. The ticket is retained.

Cartão Pré-pago (Prepaid Card) - You can buy one with as many trips as you want. It can be used for each individual at a time. Just repass it through the scanner to release the turnstile each time. Keep it with you.

The "Metrô on the Surface" is a bus that makes the integration of Metro with the neighborhoods of Gavea. Scan the Prepaid card at the turnstile sensor in the Metrô, keep the card with you to use it again in the Bus "Metrô on the Surface", the bus pass is not charged.
